Connecting an Android device to C2k Open Guest

Overview

This information sheet explains the steps required to connect an Android to C2k Guest Wireless. This is a first-time only activity and would only need to be carried out again when the user account password has changed.

Prerequisites for connecting to C2k Open Guest:

C2k User account must be a member of **Meru Open Guest** security group

Connecting the Android (i.e. Samsung Galaxy Tab 4)

1. Power on Galaxy Tab device and in the home screen swipe down and tap the **Settings** icon.

2. Within Settings, go to **Wi-Fi** component

3. In the list of wireless networks, tap **C2k Open Guest**

4. C2k Open Guest connection information dialog is then displayed.

   - Ensure EAP Method is set to **PEAP**
   - Ensure Phase 2 Authentication is set to **MSCHAPV2**
   - In the Identity field enter the C2k Username
   - Scroll down
   - In the Password field enter C2k password
   - Tap **Connect** button

5. System will now connect to C2k Open Guest

6. Tap the Home button

7. System is connected – Internet/Chrome, Play Store etc.. should now be accessible.
