Connecting a Chromebook to C2k Open Guest

Overview

This information sheet explains the steps required to connect a Chromebook to C2k Guest Wireless. This is a first-time only activity and would only need to be carried out again when the user account password has changed.

Prerequisites for connecting to C2k Open Guest:

C2k User account must be a member of the **Meru Open Guest** security group

Connecting the Chromebook

1. Power on Chromebook and in the Chrome signin/network window, login as normal using your Google credentials or login as Guest.

2. Click the Wifi icon in the bottom right hand corner and connect to the C2kOpenGuest network. A settings dialogue will be displayed.

3. Ensure the following is entered:

   EAP Method – PEAP
   Phase 2 Authentication – MSCHAPv2
   Server CA Certificate – Do not check
   Identity – <c2ken\C2k username>
   Password – <C2k password>
   Click Connect button

11. The Chromebook will now connect to C2k OpenGuest.

12. You will now be able to browse the internet, download apps etc.
